Helping brands stand out since 1964

Harco Molding is a leading provider of custom designed branded promotional products for every business.

Chances are you're already familiar with Harco's line of custom molded products. Perhaps it was a swizzle stick in a cocktail you enjoyed, or cookies you made with one of our cookie cutters. It could have been a taster spoon you sampled a delicious treat with. Or maybe it was that promotional item you received at a recent trade show.

Known for advanced injection molding, leading-edge printing and consistently providing customers with unmatched quality and service, Harco Molding is the leading manufacturer of items designed for promotion, advertising, food service or resale, and used by millions of people all over the world.

Since 1964, we've been helping clients grow awareness of their business and add value to their brands by leaving a lasting impression with their customers through promotional marketing.

With our talented team of designers and state-of-the-art manufacturing facility, we're well-equipped to help you make memorable presentations in a variety of colors and materials, at competitive prices. Our specialities include picks, stirrers, spoons, embossed medallions or tokens, cookie cutters and presses, containers, industrial parts, and much more. If you can dream it, we can make it!

Harco gives you the personal touch that only a family-run independent business can offer. We not only design your branded items, we also manufacture, package and ship your products to you — on time, on budget, and on brand.
